Note To Customers

PACKING AND GRADING

Will be done in the most careful way. Orders will be packed to insure arrival in good condition. Packing will be charged at cost on charge orders. Certificate of inspection attached to all shipments.

SHIPPING INSTRUCTIONS

Should always be given fully, unless you prefer to leave to our best judgment.

CLAIMS

All claims for errors must be reported upon receipt of goods and will be rectified promptly. Unless this is done we cannot accept responsibility of any kind.

No GUARANTEE is made that stock will grow, whether planted by us or not. As we have no control over after-treatment or weather conditions.

In no case shall we be held for damage exceeding original purchase price and only to this extent when proper proof is furnished that stock has been wrongly labeled.

All orders are accepted and filled on these terms, unless otherwise agreed.

FALL PLANTING SEASON begins in August and extends usually till about December 1, according to weather conditions.

SPRING SHIPMENTS are forwarded according to customers' wishes and subject to conditions beyond our control, March 1 to May 30. PLEASE ORDER EARLY.

Hardy Native Herbaceous Perennials

This list contains a variety of Herbaceous plants furnishing a succession of bloom from early spring to late autumn, all having been tried out with success in cultivation. The height indicates the approximate height of each plant as found in wild state. The time of blooming naturally depends on locality.

	Price Each			
	1-9	10-24	25-250	Over 250

Hardy Native Ferns

For shady locations, no class of plants can equal the ferns. They are easily grown in ordinary soils and will often thrive where it is impossible to make flowering plants succeed. We handle large quantities of Ferns annually and recommend the following:

ADIANTUM pedatum. Maidenhair Fern. 12-18 ins. One of the most distinct and beautiful ferns. Prefers moist shady location. Strong	\$.25	\$.22	\$.17	\$.15
